

TAOREM LUCKY SINGH

FULL-STACK WEB, WORDPRESS & AI DEVELOPER

Moreh, Manipur - 795131 Phone: +91 93626 57944 Email: luckytaorem5@gmail.com Portfolio: luckytaorem.github.io
LinkedIn: linkedin.com/in/luckytaorem5 Blogs: Itdeveloperblogs.github.io

PROFESSIONAL SUMMARY

Versatile **Full-Stack Web Developer**, **WordPress Specialist**, and **AI Engineer** with a strong B.Tech background in Computer Science. Expertise in engineering high-performance WordPress themes/plugins, custom PHP web backends, RAG chatbots, and automated CI/CD AI pipelines. Highly skilled in Python, PHP, JavaScript, MySQL, and REST API integrations (LLMs, Razorpay, PayPal) to construct scalable, secure web architectures optimized for speed, ATS compatibility, and user retention.

TECHNICAL SKILLS

FULL-STACK & WEB DEV: React (Vite), Node.js, Express, Socket.io, PHP, WordPress (Custom Themes & Plugins), JavaScript (ES6+), HTML5, CSS3
AI, BACKEND & CORE: Python, FastAPI, C++, Java, Go, Rust, LLMs (Llama, OpenAI, Ollama), Vector DBs (Pinecone), RAG Systems, n8n Automation
DATABASES & DEVOPS: MongoDB, MySQL, Git, GitHub Actions (CI/CD), Cron Jobs, cPanel Administration, Rclone, Google Cloud Shell
ANALYTICS & WEB SEO: Google Analytics (GA4), Google Tag Manager (GTM), Technical SEO, Schema Markup, Speed & Web Performance Optimization

PROFESSIONAL EXPERIENCE

ForceFriction AI June 2025 – June 2026
WordPress Developer Remote / Tamil Nadu, India

- Architected** scalable full-stack web applications and custom WordPress implementations using PHP, and dynamic RESTful API integrations.
- Integrated** PayPal and Razorpay payment gateways via AJAX & custom PHP backend endpoints, automating recurring billing pipelines.
- Engineered** a fully synchronized API ecosystem that unified website and mobile app data — posts, user profiles, and payments — ensuring real-time consistency across platforms.

7 Star MedTech Feb 2025 – May 2025
SEO & Technical Web Analyst Intern Noida, India

- Optimized** web architecture, site speed, and structured Schema markup on WordPress platforms, driving a 30% increase in organic indexing.
- Implemented** GA4 tracking pipelines and GTM custom events to monitor site health metrics and resolve critical Google Search Console errors.

KEY PROJECTS

EduBattle Arena – Proctored Assessment & E-Sports Coding Platform June 2026 – August 2026
React (Vite), Node.js, Express, Socket.io, MongoDB & Monaco Editor

- Architected** a comprehensive role-based architecture featuring a Teacher Dashboard for live telemetry and real-time code monitoring, alongside a secure Student Portal enforcing strict anti-cheat protocols (fullscreen lock, DevTools blocking).
- Engineered** secure compilation pipelines for 7+ programming languages (JS, Python, Java, C++, C, Go, Rust) via robust backend execution containers that dynamically auto-parse space-separated standard inputs.
- Implemented** a low-latency 1v1 multiplayer matchmaking state container using Socket.io, enabling automatic competitive match pooling dynamically sorted by player Elo rating caps.
- Developed** a Reddit-style nested discussion forum with atomic user-tracking for validation, and an automated timezone-proof daily puzzle scheduling queue with a smart fallback layer.

LT Developer Blogs & AI Publishing Pipeline May 2026 – June 2026
Python, JavaScript, GitHub Actions (CI/CD), LLMs & Web Automation

- Engineered** a hands-free web publishing workflow using Python, CI/CD pipelines, and Cron jobs to systematically generate and deploy Markdown content via Google AI and SambaNova LLM APIs.
- Developed** a suite of interactive developer utilities, including an ATS Resume Scanner, AI Cover Letter Generator, and data-processing tools (Web Scrapers, CSV-to-JSON) to streamline content management.

Context-Aware RAG AI Chatbot Assistant May 2026 – June 2026
FastAPI, Pinecone Vector DB, Llama Models & Web Service

- Developed** a high-speed Retrieval-Augmented Generation (RAG) assistant designed to deliver technical support from custom document bases.
- Architected** a low-latency backend with FastAPI and Pinecone Vector DB, enabling real-time semantic search and dynamic conversation memory.

Techimag & AI Business Magazine Platforms June 2025 – June 2026
Full-Stack WordPress Architectures, PHP & GA4 Data Pipelines

- Built** high-performance WordPress publishing platforms featuring custom PHP templates, GDPR cookie controls, and GTM dataLayer pushes.
- Synchronized** multi-channel subscription databases with PayPal and Razorpay API webhooks for seamless premium user access management.

EDUCATION

Lovely Professional University 2022 – 2025
B.Tech in Computer Science & Engineering | **GPA: 7.1 / 10** Punjab, India

Lovely Professional University 2019 – 2022
Diploma in Computer Science & Engineering | **GPA: 8.38 / 10** Punjab, India

CERTIFICATIONS

Summer Internship Program | JAVA Core & Web Backend Fundamentals | Board Infinity July 2023
